## About me

As a recent graduate with a strong foundation in computer science and natural language processing, I am passionate about applying AI to solve complex problems and improve communication. I have experience in creating a custom ATS system by fine-tuning Spacy transformer models, demonstrating my ability to not only understand but also apply advanced NLP techniques to practical applications.

## Experience

### NLP Engineer Intern
Internship    Spacy    Transformer

🗄 Custom ATS System Project    ◎ Remote    📅 2023

Led the development of a custom Applicant Tracking System (ATS) by fine-tuning Spacy transformer models for enhanced resume parsing and candidate matching, showcasing my skills in NLP and machine learning.

### Software Engineer
Academic    Python    NLP

🗄 University Projects    ◎ Remote    📅 2022 - 2023

Engaged in multiple university projects focusing on NLP and AI, including building chatbots and text analysis tools, to deepen my understanding and application of NLP techniques.
